Cavity wall insulation

Knauf Insulation Supafil Cavity 033

An uninsulated cavity wall lets a lot of heat escape. We blow insulation material into the cavity between the inner and outer wall. Quick, no renovation, and you notice the difference in comfort and energy bill straight away.

500+	Free	ISDE
homes insulated	no-obligation quote	help with your subsidy application

Benefits

- \+ Installed quickly, often within one day
- \+ No renovation or mess indoors
- \+ Fills the cavity completely, also around pipes and corners
- \+ Branded material from Knauf Insulation
- \+ One of the most affordable ways to insulate
- \+ Holes in the joints are neatly finished

Good to know

- ! Only possible for homes with a cavity wall
- ! The cavity must be suitable and wide enough
- ! Damp or structural defects must be resolved first
- ! We always assess this beforehand

Technical data

Material	**Knauf Insulation Supafil Cavity 033**
ISDE registration code	**KA21823**
Rd value (per ISDE registration)	**1.10 m²K/W**

Subsidy (ISDE)

Cavity wall insulation may qualify for ISDE subsidy. We are happy to help with your ISDE subsidy application. Whether you qualify depends on your situation and the current conditions.

How we work

1	We first assess whether the cavity is suitable and wide enough
2	Through small holes in the joints we blow the material into the cavity
3	The holes are neatly finished and waste is removed

No rights can be derived from this information. The final specification, thickness and price are stated in your quote.

Free, no-obligation quote
